THE WYNAAD GOLD-MINING COMPANY, Limited.

SINCE the registration of the above Company, and the issue of the Original Prospectus, the following CHANGES have been made in the Company's Executive and Directorate :

(1) At a meeting of the Provisional Directors held at the Company's Offices on the 8th instant, Messrs. TREMAYNE & Co. tendered their RESIGNATION of the AGENCY of the Company, together with the powers secured to them under its Articles of Association. Their resignation was accepted by the Directors, and has since been publicly advertised.

(2) At the same meeting Messrs. C. H. B. FORBES and Co. were APPOINTED SECRETARIES and AGENTS of the Company, and have assumed the management of its affairs.

(3) The following gentlemen have already consented to join the BOARD of DIRECTORS of the Company :—

John Gordon, Esq.
Nanabhoy Byramjee Jejeebhoy, Esq.
Raghoonath Narrayen Khote, Esq.
H. R. Cormack, Esq.
Charles H. B. Forbes, Esq.

All APPLICATIONS for SHARES should now be ADDRESSED to the DIRECTORS of the COMPANY, to the care of Messrs. C. H. B. FORBES and Co., 8, Church Lane, Bombay. It has been arranged that for the future NO PAYMENT will be REQUIRED on application, but that RUPEES FIVE will be PAYABLE on ALLOTMENT, and that the balance will be called up as required by two instalments, not exceeding rupees ten per share at a time, one month's notice at least being given of each call, thus making the fully paid up value of the shares rupees twenty-five, without any further liability whatsoever. Those who have already applied for Shares and paid a deposit at the rate of rupees ten per share at the time of such application, have been credited with that amount in the Company's books, and will in consequence not be liable for the rupees five per share payable on allotment, and will be liable for rupees five only, instead of rupees ten, when the succeeding call is made.

The PROPERTY to be acquired by the Company embraces 1,000 acres. About one-third only of this area has as yet been prospected, and upon this Professor Wynne, in his report upon the Estate, furnished to Messrs. Arbuthnot and Co., states that there are no less than seven reefs of auriferous quartz existing. The consideration to be paid to the vendor for conveying to the Company the freehold title to the property embracing the Mining rights is £15,000 cash, and eight thousand fully paid up shares. The purchase money compares therefore extremely favourably with that paid by any London Company yet formed to acquire and mine auriferous reef in the Wynaad district.

PHOSPHO! PHOSPHO!! PHOSPHO!!!

A NON-ALCOHOLIC SPARKLING RESTORER.

THIS new BEVERAGE, which has been under trial for some time past, is pronounced on competent authority to be an excellent TONIC RESTORER in all those forms of nervous disorder in which Phosphoric and Quinine are indicated. As it stimulates and invigorates both the MIND and the BODY, we have no hesitation in stating that it is one of the most invaluable NERVINE TONICS extant, and is especially beneficial in constitutions enfeebled through OVERWORK, NERVOUS DEBILITY, and EXHAUSTION. Though a medicinal BEVERAGE, the taste of the salts entering into its composition has been almost completely disguised, and rendered agreeable to the palate, and may therefore be taken in the place of ordinary aerated water.

CLOSING OF THEIR POONA BR

COMMERCIAL INTELLIGENCE

FRIDAY EVENING, Oct. 15.

BUSINESS has been a good deal interrupted this week by the Dussera holidays, for which the Banks and most of the merchants' offices were closed yesterday and the day before. Decided symptoms of growing activity are however apparent, not only in ready transactions, but in connection with the coming season. Already Freights are showing a strong upward tendency, indicating anticipations of a large volume of exports ; and imports also promise an active trade. Perhaps the only unsettled feature visible at the moment—leaving out the question of European politics—is the exchangeable value of the Rupee. Until recently a very general feeling prevailed that no important change would take place until the development of our export trade brought about a steady advance, but latterly the movements of Gold in Europe have attracted closer attention to the subject, with the result of showing that notwithstanding the steadiness of the past few months the position is almost as full of uncertainty as ever. The experience of the past five years has undoubtedly brought about a system of operating, under which the ordinary trader is open to many fewer chances of loss from fluctuations in exchange, but at the same time the liability to sudden and extensive movements unquestionably tends to unsettle business. Money continues plentiful, fostering an active demand for Stocks and Shares, and Spinning and Weaving Mill Companies now stand so well that we hear rumours of several new concerns being likely soon to see the light. Gold Mining Companies are not being taken up here with the same avidity as in London. Messrs. C. H. B. Forbes & Co. announce that the whole of the shares of the "Ripon Company" have been subscribed ; and the same firm have now taken up the management of the "Wynaad," which failed to take with the public under the auspices of Tremayne &Co. Until some actual mining results are apparent, however, such enterprises will only be touched with great caution.

MONEY.—Great ease is still the leading feature of the market, and although every day necessarily brings us nearer the time when an active export trade must bring money into increased request, the turning point is evidently still some way off. Our export season is generally supposed to commence with the termination of the Dewali holidays, but practically funds do not come into active request until after the turn of the year ; and this season it is more likely to be later than earlier than usual, as the next two months bear promise of a large business being done in imports, which means a proportionate amount of capital being brought into the market. Accommodation in the shape of demand loans against Government Paper is still easily obtainable at 2 per cent. per annum without bringing out borrowers. The last return of the Bank of Bombay for the week ending 9th instant showed a decrease of 9 lacs in the Cash Balance, owing to withdrawals from the Government account ; trade movements about balancing each other.

EXCHANGE.—With Calcutta closed since the departure of last mail, and two days' holidays here there has necessarily been only a limited amount of business done, although the Banks have latterly shown much more willingness to operate for distant delivery both in buying and selling. Until the holidays intervened no change whatever took place in quotations for ready bills, but to-day—owing to Council drafts having gone at 1s. 8d., about 1-16d. under what was expected—a distinctly easier feeling has been apparent, and for Bank Bills a decline of 1-32d. may be established, making closing rates :—Bank Bills on demand 1s. 8d., Telegraphic 1s. 7 31-32d., 3 months' sight 1s. 8 3-32d. ; Credits, 3 months' sight 1s. 8¼d. ; Documents, 3 months' 1s. 8 9-32d. ; Francs, 3 months' 2·14½ per rupee.

For future delivery a difference of 1-32d. per rupee per month up to February is named both for buying and selling, while for February-March there are buyers at 1s. 8 13-32d. and for April-May delivery at 1s. 8 15-32d. for 3 months' sight credits. Believers in a rise after the end of the year are not nearly so sanguine now as they were, and some people even talk of a decline being quite as probable, as an advance. The aspect of the Silver question at home is no doubt less assuring than it seemed, and at the moment the general tendency of things is against the market ; but at the same time we think it not at all unlikely that Calcutta may introduce more strength when business is resumed there after the holidays.

On Calcutta, rates are nominal at 3-32 per cent. premium for demand and ⅜ per cent. discount for 60 days' sight. On China, 60 days' sight Mercantile Bills are quoted at Rs. 219 per 100 dollars. From Hongkong, the latest quotation by wire for 4 months' sight Bank Bills on London is 3s. 9¾d. per dollar, and from Shanghai 5s. 2¾d. per tael.

GOVERNMENT SECURITIES.—A strong enquiry has been apparent throughout at steadily hardening rates, especially for Fours-and-a-half which we now quoted at Rs. 104¾ buyers. Fours we call Rs. 96¾. The easiness of money continues a strong feature, and there has also been considerable buying for remittance to London of late on the part of the Exchange Banks.

SHARES.—Although to-day a somewhat weaker feeling has been apparent, the market on the whole has been strong, and on the week the alterations have been all in favour of sellers. In *Bank* shares the only change has been in Bank of Bombay which are ½ per cent. higher at Rs. 707½. Nationals remain at Rs. 106, and Agras at Rs. 132. In *Land* Companies there has been nothing doing except in Colabas, which are Rs. 35 higher. *Press* Companies are strong, and our quotations show an advance since last mail day of Rs. 200 in Fort Press, Rs. 100 in Apollo, Rs. 75 in Colaba and Prince of Wales, and Rs. 15 in Mofussil Company. *Spinning and Weaving Mill* shares have all been in active request. At the close owing to slightly less favourable advices from China for Yarns a slight decline has taken place, but on the week the movements show a rise of Rs. 100 in Alliance, Coorla, and New Great Eastern, Rs. 90 in Victoria, Rs. 65 in Sassoon, Rs. 55 in Soonderdass, Rs. 50 in Alfred, Rs. 40 in Albert, Rs. 35 in Khandeish and Sholapore, Rs. 30 in Hindustan, Rs. 25 in Hydrabad, Rs. 20 in Bombay United, Manockjee Petit, and National, Rs. 15 in Central India, Empress, Jewraz Balloo, Khutao Muckonjee, Mazagon, Morarjee Goculdass, Oriental, and Prince of Wales. In *Miscellaneous* Companies, Bombay Saw Mills are Rs. 25, Bombay Burmah Trading Rs. 15, Bombay Ice and Treacher and Co., Limited, Rs. 5 per share higher.

PIECE-GOODS.—The intervention of the holidays checked business in the bazaar somewhat for the first day or two of the week, but the demand since has more than compensated for any falling off, and we estimate the clearances since the departure of last mail at 3,000 to 3,500 packages. With the exception of a few special makes of 39-inch and 8 lb. 45-inch Grey Shirtings, which may be called one anna per piece higher, prices remain unchanged all round ; and what with the decline in exchange and the increasing firmness in Manchester simultaneous firm offer business is becoming more and more impracticable. This, however, is all in favour of greater firmness later on, as dealers in the meantime will have an opportunity of freeing their hands of the existing accumulation of stocks which at the moment are undoubtedly heavy, and quite sufficient to account for the discrepancy betwixt Manchester cost and current prices here.

For *Local* Goods there has been a fair enquiry resulting in sales of about 2,500 packages at prices ranging from As. 8¾ to As. 8¾ per lb.

TWIST.—For English Yarns the enquiry has been slow, and with supplies on the spot fully equal to the demand, prices have had an easier tendency throughout, although the only quotable change is a decline of Anna ¼ per lb. in 40s Mule. *Local* Yarns have been freely bought, and about 3,000 packages have changed hands at As. 7½ to As. 7⅞ for 20s.

METALS.—*Copper.*—Transactions have been comparatively small, but stocks are only moderate, and with weaker exchange importers have not been pressing sellers. Prices are unaltered. *Yellow Metal* is unaltered in value, but supplies are not excessive, and holders are firm. *Iron* is dull and rather slow of sale, but the only decline in values is a reduction of Re. 1 per candy in Swedish Bars.

COALS.—There has not been quite so much pressure on the part of importers to make sales to arrive, and values are accordingly no lower, but with large stocks on the bunder, buyers have kept continually under current rates, and the actual business done has been comparatively light. We quote to-day to arrive by steamer :—

Davison's West Hartley	Rs. 17-4 to 17-8 per ton.
Baird's Welsh Hartley	" 16-12 to 17-4 "
Cardiff	" 17-4 to 17-8 "
Watson's Hartley	" 16-12 to 17-0 "

COTTON.—The stronger accounts from Liverpool by telegraph have rendered sellers decidedly firmer, and for old Cotton a partial advance of Re. 1 to Rs. 2 per candy has been established, while New Crop for future delivery may be called Rs. 2 to Rs. 3 per candy higher. In ready Cotton the transactions reported have only been some 3,000 bales altogether, of which not more than 1,500 bales have been for export. In New Crop the transactions may be put at about 1,000 bales, but of these a large proportion consists of speculative purchases by native dealers from European firms.

Crop accounts can scarcely be said to have undergone any change of importance during the week. Hinganghaut seems likely to be a large crop, and some small parcels will probably be available for November shipment. Of Omra we cannot expect much before the end of the year, but both quantity and quality are more favourably reported upon than formerly. Broach is still promising a large yield, and the same may be said of Dhollera. All round appearances seem in favour of the exports for the first six months of the coming year being close upon the figures of last season.

The *Receipts* from up-country to date give the following comparisons :—

	1880.	1879.	1878.
For the Week	3,566	7,191	2,541
Since 1st September	21,031	42,570	17,795
Since 1st Jan.	1,075,541	886,310	876,196

The *Clearances for Sea* since the departure of last mail have been 4,481 bales, making a total since 1st January of 870,680 bales, against 611,077 bales for the corresponding period last year.

The following are to-day's quotations for full-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission :—

	Per Candy.
Old Good Omra (Nominal)	Rs. 210
" F.G.F. do.	" 202
" G.F. do.	" 195
" Good Dhollera (Nominal)	" 205
" F.G.F. do.	" 199
" Do. do. Dec. delivery	" 196
" G.F. do. Ready	" 192
" G.F. Compta	" 181
" F.G.F. Ginned Dharwar	" 197
New Akote (March delivery)	" 213
" Good Omra do.	" 211
" F.G.F. do.	" 205
" Good M.G. Broach do.	" 227
" F.G.F. Dhollera, May delivery	" 197

SEEDS.—*Linseed.*—An active enquiry prevails both for ready and future delivery. Supplies are limited, but owing to the rise in Freights prices are unchanged at Rs. 7 per cwt. The contracts for April-May delivery now total about 300,000 cwts., and with buyers at Rs. 6-9 sellers ask Rs. 6-10 per cwt. In *Rapeseed* there is nothing doing on the spot, stocks being exhausted, and Guzerat for April-May delivery is unchanged at Rs. 5-13 per cwt. In *Gingelly* no fresh transactions have transpired, and we quote Mixed Rs. 40 to Rs. 41½, White Rs. 42 to Rs. 42½ per candy.

WHEAT meets a very active demand, and the small parcels arriving are rapidly picked up on the basis of Rs. 32 to Rs. 32-12 for Best White. For delivery in a month a large business has been done at Rs. 31-8 to Rs. 32-8 per candy according to quality.

LETTERS, PARCELS, and TELEGRAMS for HIS EXCELLENCY the GOVERNOR and the PRIVATE SECRETARY, which cannot reach Gunesh Khind by 6 on MONDAY evening, the 18th instant, should be sent to Bella Vista, Mahableshwur, until further notice.

G. H. R. HART,
Private Secretary to H. E. the Governor.
Government House, Gunesh Khind, Poona, 12th October, 1880.

Messrs. C. MARCKS & COMPANY, OF BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12 lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

The Bombay Gazette

SATURDAY, OCTOBER 16, 1880.

MAJOR HOGG, who was the Brigade Major of General Nuttall's cavalry force, has written a very interesting account of the part taken by that force at the battle of Maiwand, which incidentally throws a strong light on the manner in which the battle was fought. The writer carefully abstains from criticism ; but the materials which he gives will enable others to supply the omission. It did not lie within the scope of his narrative to show, at all events in any detail, how the infantry came to give way at the supreme moment, or why all attempts to rally the regiments, which had stood fire for four hours without flinching, were unsuccessful. It is possible that on these points we may yet obtain full information from eye-witnesses. But pending details of this kind, we may now form a very definite idea of the manner in which the battle resulted in the greatest disaster of the war. The main lines of the fight are familiar to our readers from the descriptions already published, and we need not now go over them. Lieutenant Maclaine brought on the battle by carrying his two guns over a nullah, and advancing rapidly nearly a mile in advance to engage the enemy's cavalry. Incredible as it may seem, the guns would have been wholly unprotected had not Major Hogg detached fifty troopers of the 3rd Sindh Horse under Lieutenant Monteith to gallop after him, and act as an escort. General Nuttall has stated that this advance was wholly unauthorized, and it is difficult to see how any responsible officer in his senses could have authorized an unsupported movement of the kind, which must have entailed the loss of the two guns had the enemy's cavalry shown any enterprise. Major Hogg refuses to believe that Lieutenant Maclaine acted in this matter without orders. But as there is no hint or intimation in any quarter as to such orders being given, and there is no reason why they should have been given, we can only conclude that the advance was due to the impetuosity of Lieutenant Maclaine. It must be borne in mind that no one in the force at that time entertained the slightest misgivings as to the result of a fight with Ayoub's men. "As the small force marched off from the camping-ground at Khushk-i-Nakhud in search of Ayoub and his army," says Major Hogg, "there was but one feeling, which pervaded all ranks, from the General downwards—a burning desire to cross swords with the enemy, and a feeling of absolute certainty as to the successful issue of any engagement which might take place." It is more reasonable to conclude, we think, that this "burning desire" to engage the enemy hurried the young Lieutenant and his two guns across the nullah at 1,500 yards in the direction of the enemy's retreating cavalry than that either General Nuttall or General Burrows should, without any apparent motive, have ordered so rash an advance. And we are confirmed in this view by the fact, which Major Hogg himself confirms, that "orderly after orderly was despatched to recall" the guns, "but all in vain." The battle being thus begun, General Burrows ordered the cavalry brigade to advance across the nullah, and support the guns in such perilous proximity to the enemy's force. When this order was given the full strength and the actual position of Ayoub's army were not disclosed ; but when a position some 1,200 yards beyond the nullah had been reached, the opposing force was seen in a long line diagonally to the front, the nearest of the enemy being some 2,500 yards from our force. Major Hogg agrees with the generals in estimating the Afghans at 25,000 strong, of whom 4,000 were cavalry. Now, it is at this point that the General should have made up his mind definitively as to the course to be pursued, and upon the decision then taken the fortunes of the day must in any case have largely turned. When it was seen that the Afghan force was in overwhelming numbers the prudence of choosing a position in which the enemy's numerical superiority might have been neutralised was, or ought to have been, obvious ; and as it happens, there was immediately in the rear of the position actually taken up a strong defensive position, where the front would have been protected from a rush by the scarp of a nullah, and the wings would have rested on a village on one side and a defensible enclosure on the other. The nullah would, in parts at least, have supplied the combatants and the baggage, animals with water. Had the force fallen back on this position, Ayoub would have had to attack it under every disadvantage, and the weapons of precision in the hands of our troops would have told with murderous effect upon the Ghazis. The advantages of fighting on ground of this character would unquestionably have proved irresistible to a Wellington. A Napier or a Bonaparte, constitutionally impatient of any manœuvre partaking of the character of retreat, might, indeed, have refused to fall back, once the force was actually in movement towards the enemy, and it is probable enough that either would have preferred to retain the advantages of the initiative, and go boldly forward against the enemy, and stake all upon the die. Had the brigade been marched without a moment's pause straight upon the enemy's centre, and coming close up to him—while yet in doubt as to our intentions, and undecided as to his own movements—poured in upon his masses the terrific volleys which the Martini-Henrys and the Sniders can give forth, is it too much to say that the Afghans must have gone down before the tempest of bullets ? The moral effect of such an attack is always great, and with an Oriental army it is generally irresistible. If General Burrows had succeeded in piercing the centre of Ayoub's masses, and by forcing the fighting had brought them under the full force of the fire of his breech-loaders, and crushed them the probability is that the Ghazis forming his wings would have melted away, or if they did not, they might have been themselves attacked in turn, and beaten in detail. But unfortunately the plan of battle decided upon was that which gave to the small force none of the advantages, either of position or of the attack. The army was drawn up in a plain in such a position that it could be approached by the enemy in front flank, and rear with the greatest facility ; while the enemy himself had the advantage of being partially protected from our fire by the nature of the ground on which his force was drawn up. The fight was for a couple of hours an artillery duel. The enemy had thirty-six guns to reply to our two batteries. While the engagement was in progress Ayoub developed turning movements on both flanks. The bulk of his cavalry were on our left, while Ghazis and the remainder of his cavalry pressed the right. Now it so happened that our force, small as it was, had been obliged to detach 300 infantry and 150 cavalry to protect the

THE postal route between Ahmednuggur and Aurangabad, which took three days in transit, has been abolished from the 1st instant, and the mails are now sent *viâ* Manmad and Nandgaom.

OUR Aurungabad correspondent states that after the present crops of opium in Hyderabad territory have been collected, *no more* opium is to be grown in the Nizam's Dominions. The yield of opium has been large, and added to the revenue of the State.

DURING the absence of Mr. Jones, C. S., the Revenue Commissioner, Hyderabad Assigned Districts, on privilege leave, Colonel Bell, Judicial Commissioner, officiates for him ; Colonel Bushby, Deputy Commissioner, Buldana, officiates as Judicial Commissioner ; and Major Thompson, Assistant Commissioner, takes up the Deputy Commissionership.

OUR Berar correspondent writes :—"Should Doctor Law, officiating Residency Surgeon, Hyderabad, *vice* Doctor Wyndowe, on leave, refuse the Sanitary Commissionership of Berar, it is reported that the present incumbent, Surgeon Little, M. D., will be permanently appointed to the post which he now fills."

IT is likely, we are informed, that Brigadier-General Gough will succeed General Wright, C. B., commanding the Hyderabad Contingent troops. A correspondent asks :—"Could not the Command of the H. C. troops be given to the General Commanding the Hyderabad Subsidiary Force, retaining the present Assistant Adjutant-General, Captain Kenhedy, H. C. ? The Deputy Surgeon-General, I.M.D., in addition to his duties in the H. S. F., has charge of the Medical Department, H. C. At least a trial might be made for a year, which would help to clear at least Rs. 20,000 off Sir John Strachey's estimate blunder."

ON arrival of the detachment 3rd Cavalry H.C., in command of Major Stewart at Mominabad, Colonel Eustace Hill, in charge of the *squadron* 4th Cavalry H.C., will return to Aurungabad, and being senior field officer, assume command of the station. Our correspondent adds :—"This is a peculiarity of the Staff Corps system ; a 'full-blown colonel' in charge of *one hundred* men one day, and in charge of a military station with three regiments the next day !"

WE have received the final report of the General Committee of the Hyderabad Irish Famine Relief Fund, which shows that the total amount contributed from Hyderabad was Rs. 85,576-10-1.

THE incidents connected with the loss of the pilot-boat Fairy in a heavy gale of wind off the Pronga in August last year, and the gallant rescue of the crew, through the measures adopted by Captain Ker, of the B. I. S. N. Company's steamer Sirdhana, will be fresh in the memories of our readers. We are glad to notice that the Board of Trade has recognised the successful efforts and humane conduct of Captain Ker and the gallantry of Mr. Brown, third officer of the Sirdhana, who was in charge of the boat which picked the men up, and of Mr. Piper, who was pilot of the steamer, and also in the boat when the men were rescued, by awarding to each a handsome silver medal, and also by awarding a bronze medal to each of the eight men who formed the boat's crew.

THE Maharajah of Nepal, a Simla telegram to the *Civil and Military Gazette* says, visits India for three months to hunt. Dr. Whitwell, Residency Surgeon, probably accompanies him as Political Officer.

SOME practised gold-diggers from Australia, we are informed, have arrived at Madras, and are to be sent up at once to work in the Kolar gold-field. A superintendent for the same mines is also expected from Australia.

LORD CLARENDON left his residence, the 1st Battalion Rifle Brigade regiment, Portsmouth, and came up to London on the intention of returning to England. A Reuter's agent, describing his departure from the station, says :—"We are told that Lord Clinton was a great favourite with both officers and men of his battalion and this was clearly demonstrated by the crowds of officers and men assembled at the station to bid his Lordship adieu and see him off. As Lord Clinton was about to approach the carriage attached to the train wherein he was going to occupy his seat for the journey to Bombay, the Rifle Brigade officers who were present at the station, headed by one or other side of his Lordship to the carriage, brought to his carriage, while the band played the regimental quick march, and the men of the regiment cheered lustily.

REGARDING a new and pleasant beverage which has lately been introduced in Bombay, Dr. G. S. A. Ranking, M.A., of the Indian Medical Department, writes that " in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the medical profession in India, viz., the discovery of a beverage which shall assuage thirst, *restore nervous waste*, and, while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India, it will meet all the requirements of those who wish to restore their nervous systems without impairing their livers. In a word, we may as fairly call this new nervine tonic 'Zoergon' as 'Zoedone,' containing as it does so pre-eminently a duty of life with one of its pleasures."

THE *Statesman* trusts General Roberts is not going to be accepted as a political authority on Afghan questions on the strength of his march to Kandahar. "We would be the last to underrate the importance or the merit of that achievement ; but though he has well won distinction as a hero of quick marches, we are not aware of any proof he has given of political wisdom. He is an active, intrepid, little man, consumed with ambition, ready to undertake anything, and able to do a good deal—capable, apparently, of kindling some enthusiasm in his followers, and supremely fortunate in having closed his Afghan career by an exploit which not only outshines all his former acts, but makes even his severest critics inclined, for the time, to forget his blunder and the eternal infamy and hatred which he gained for us at Kabul. But surely the authorities are not going to commit the absurdity—the blunder worse than a crime, for it would be the fruitful mother of crimes—of taking General Roberts' advice on such an important question as that of the future of Kandahar—a question involving high political and moral issues. We might as wisely take the opinion of a terrier on the dignity of the sport of rat-hunting." The *Statesman* has the most unsavoury similies.

FROM Mach, on October 12th, the correspondent of the *Pioneer* telegraphed :—The 92nd Highlanders arrived here to-day. Yesterday, Monday, we were overtaken by 300 of the 4th Punjabis under Colonel Norman, escorting two guns of Wace's battery. They had marched twenty-three miles from Quetta, having been sent off hastily in consequence of some Bugtis giving trouble on the railway route. Colonel Norman halted here to-day, and makes double march to-morrow. Generals Roberts and Ross, and Mr. Lyall, should, according to present arrangements, overtake us to-morrow. The 2nd Goorkhas and the remainder of the 24th are one march in rear of us.

THE *Madras Mail* writes :—A favourite topic of Bengal military critics is the expense of maintaining Madras sepoys, compared to Bengal and Bombay troops. Their complaints are well-grounded, for the Madras sepoys of a detachment stationed at Michnee, in the Punjab, lately were drawing compensation for dearness of rice at the rate of Rs. 17 mensem. So that each private sepoy received from Rs. 24 to Rs. 27 a month, besides field batta. Rice was all but unprocurable at Michnee, and commanded fancy prices. All through Northern India, it is so dear that the compensation for its dearness raises the allowances of the Madras native troops to an extravagant sum. Just the same thing would happen if the Bengal and Bombay troops, who draw compensation for dearness of wheat, were employed in Southern India. The Madras sepoys in the north live on the grain of the country, and save their rice money to turn it into jewels on their return. This prodigality might very simply be put a stop to, by ruling that in future native troops should draw compensations for dearness of the staple grain of the province in which they happen to be serving. It is absurd, as well as expensive, for Madras sepoys at Lahore to draw compensation for dearness of rice, and for Bombay sepoys on recruiting service Quilon to draw compensation for dearness of wheat.

THE *Pioneer* is very keen just now upon army reform, and evidently thinks the whole present organisation can be altered in the easiest possible way and in the shortest possible time. Our contemporary writes :—Perhaps there may be regiments in the Bombay Presidency better disciplined than Jacob's Rifles and the 3rd Sind Horse ; but the whole of the Bombay army stands impeached by the bad behaviour of the two corps named, and the whole army must be overhauled before the Government or the country will be able to feel that it is more than a costly encumbrance on the face of the earth. Our readers, therefore, will naturally ask what steps are being taken to accomplish this great task. No reply as yet is forthcoming ; but we do not despair on that account of seeing the work taken in hand eventually. What is Government waiting for ? Probably for the impending changes in the *personnel* of the Military Department, and at Army Head-quarters. In this case there is no question about collecting information on which to act. The orthodox procedure of a Royal Commission is superfluous. The Royal Commission has investigated and reported in advance. All that need be done is to draw forth from its secret place of concealment the cut-and-dried results of an inquiry which could not have been more searching or more imposing in character, or presumably more intelligent. The principle of the presidential armies was already condemned in theory by a body of experts before it was disgraced in practice by the defeat of Maiwand and the defence of Kandahar. It is only necessary to translate the conclusions of the Army Commission into the form of Government resolutions. That the present military advisers of the Government are opposed to these conclusions is a fact of little moment. The opinion of the Lord Mayor of London about reforms in the corporation would be listened to courteously by any Government concerned with such a work ; but it would not be deferred to at the expense of opinions of a great commission of statesmen and administrators, who might have accomplished an exhaustive examination of the abuses of the corporation and the appropriate remedies.

THE Bishop of Lahore writes to the *Pioneer* to state the grounds of his appeal to the British army of the frontier, for a monumental chancel in the Lahore Cathedral Church. The right reverend gentleman remarks :—"The soldier's character, *as a soldier*, is not surely to stand and be judged of by the justice or injustice of the struggle in which he fought at his country's call—a point on which it would be irrelevant to express my opinion here. Every profession has some one or more excellencies which it can illustrate more richly and brightly than most others. Self-sacrifice is exhibited in the *military* profession, not indeed in an unrivalled, but in an eminent and exemplary degree ; and although this, in many instances, has reference rather to Queen and country than to God and Christ, even so, since it springs of duty and a high sense of honour, it may well claim to be immortalized as a sacred thing even in sacred places, rather than lightly regarded and forgotten. In so doing we adopt the principle which our Lord so strikingly sets forth as lying at the root of His Divine philosophy, that earthly duties and relations, faithfully and loyally fulfilled, not only serve to exemplify high Christian graces, but are occasions and helps of promoting the religious life. '*If ye are unfaithful in the unrighteous mammon, who will commit to your trust the true riches ?*' I would wish to see honour done to dutifulness, loyalty, and faithfulness unto death in the soldier, as I would to the same merits (not unworthy surely of recognition, and of being honourably recorded in a Christian church) were they exhibited in any other profession—my own, *e.g.*, in which that same spirit of self-sacrifice has been shown almost in the highest conceivable degree in the case of my brother, Mr. Gordon, which has led me to plead for a special memorial to him, in the form of a transept in which the native branch of our church may have a special right of possession for the service and worship of God. If a 'soldier's courageous endurance and sense of duty are to be singled out for exclusion from monumental record in our churches, I fear that in a military diocese like this such memorials will be 'few and far between.' I thank your correspondent 'Alpha' for the excellent tone and friendly spirit of his letter ; but I believe I am not wrong in differing from his conclusion. I cannot think it wrong to gather funds for such an object in any way that is not unobjectionable only, but commendable, and witnessed to by the example of the Church of Christ, whose practice it has been, age after age, to favour the erection of memorial churches to do honour to the most varied classes of merit and excellence."

REGARDING the troops which are to add importance to the Lahore Durbar, the *Civil and Military Gazette*, as changes have been made in the dates of arrival of the various regiments and batteries, and as other corps have been added, gives a corrected list of all the corps which will take part in the camp, with dates of arrival in Meean Meer :—Central India Horse arrived ; 25th P. N. I., 14th Oct. ; 72nd Highlanders, 17th October ; 92nd Highlanders, 21st Oct. ; 3rd Ghoorkas, 24th Octr. ; 10th Hussars, 1st Novr. ; 6th N.I ., 3rd Novr. ; A-B. R.H. A. and C-3 R. A., 4th Novr. ; 9th Foot, 5th Novr. ; 2-60th Rifles, 6th Novr. ; 15th Madras N. I., 6th Novr. ; 12-9th R. A., 7th Novr. ; 30th Madras N. I., 7th Novr. ; 4th Ghoorkas, 7th Novr. ; 11-9 R. A., 8th Novr. ; 3rd Punjab Cavalry, 9th Novr—in addition to the permanent garrison of Meean Meer, consisting of E-4 R. A., 19-8 R. A., 68th Light Infantry, 22nd P. N. I., 23rd Pioneers, and 3rd B. C., the latter arriving on 17th Oct. Total, 4 regiments of Cavalry, 6 batteries of Artillery, and 13 regiments of Infantry—a strength in round numbers of about 10,000 men.

A STATEMENT has been published of the average cost per day of victualling European soldiers at nineteen stations in the Madras presidency, from which we see that "at Seetabuldee it can be done for 4 annas 1·52 pies ; at Kamptee it costs 4 annas 2·83 pies ; at Madras, 4 annas 0·3 pies ; while the rate at Thayetmyo is 7 annas 3·36 pies ; at Rangoon, 7 annas 3·94 pies ; at Vizagapatam, 6 annas 4·85 pies ; and at Malapuram, 6 annas 8·11 pies."

A FRENCH exploring expedition, under the well-known traveller and *savant*, Professor Ujfalvy, is on its way to Central Asia ; having already, when the mail left, reached Nichni Novgorod. From Nichni Novgorod, it goes by steam to Perm, by train on Ekaterinburg, by post road to Tuimen, by steamer again to Semipolatinsk, and then on by post road to Tashkend, where it winters Early in the spring it starts for Samarkand, and from that point the real work of exploration begins. The antiquities of the Zerafshan district are to be examined, after which the travellers enter Bokhara, and after exploring the Khanate will try to reach Wakhan and Badakshan, and the other states lying about the head waters of the Oxus. According to the somewhat ambitious programme of the expedition, "it will depend on the state of affairs in that region whether the expedition afterwards crosses the Hindu Kush to Kabul and Kandahar, or whether it takes the road to Pekin through Kashgaria and Tibet." Professor Ujfalvy hopes to return to Paris by the beginning of 1882. The French Government has given 80,000 francs towards the expenses of the exploring party. The Professor is accompanied by M. Gabriel Bonvalo, naturalist, and Mr. Guillaume Kapins, a doctor of natural science, both paid officials of the Department of Public Instruction.

THE *World* has heard a good deal of discussion as to the rewards likely to be conferred on Sir Frederick Roberts, on which "Atlas" remarks :—Precedents count really for very little in such a matter, for with us military rewards are entirely influenced by the caprice or humour of the higher military authorities, by interest, and by the whim of the nation for the moment. But if precedents are to be taken into account, it may be remarked that the services of Roberts and those of the late Sir R. Pollock offer a parallel exact enough for practical purposes. Pollock was made a G. C. B., having been previously only a C. B. and received the thanks of both Houses of Parliament ; while the East India Company, some time after his successful campaign ended, voted him a pension of 1,000*l.* a year. But Pollock began the war as a Major-General, carried it through in that capacity, and remained a Major-General years after its conclusion. Roberts is already a K.C.B., and has the local rank of Lieutenant-General. Taking everything into consideration, were he to get the G.C.B. and the substantive rank of Lieutenant-General, he would seem adequately rewarded, and fare better than did Pollock, whose services were greater.

MR. NANA MOROJEE,

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Few could have better opportunities of judging, or were better able to judge, as to Mr. Nana Morojee's qualifications as a magistrate than "honest John Connon," our late and much lamented senior Presidency Magistrate. Not a few of Mr. Connon's friends could testify to the zest with which he enjoyed referring sometimes in private to his "friend," Mr. Nana Morojee,—speaking of him as his ideal of a native gentleman and magistrate,—one who was the soul of integrity and incorruptibility, who never scamped his work, who was no timeserver or placeman or tufthunter, but who, without seeking man's favour, or fearing the face of man, did his duty to the public ably, quietly, conscientiously, and devotedly. Qualities like these are certainly the qualities which should be fostered and encouraged in the highest degree in the native magistracy throughout the Presidency.

It seems hardly the wisest method of fostering them that one who has evinced them during a long career, and has won the confidence of both the European and the native public, should be punished so severely towards the end of his service for an error which, though deserving grave censure, is acknowledged to be due to no corrupt motive or wrongful intention. At first sight it might seem to promote the administration of justice that the error should be so punished. But will the real effect not rather be to promote confusion, and to discourage honest upright judges, making them fear that, however honourably they may serve the public, they may, through some mistake in judgment, incur a penalty from which many altogether corrupt officials are cunning enough to shield themselves ? Will it not tempt some to make hay while the sun shines ?

It is certainly not too late for Sir James Fergusson to reconsider the case. He has already shown his readiness to interpose in the cause of justice towards members of the native community. Doubtless he himself is not personally to blame for the decision as it stands. He has been too short a time our Governor to be able to know the merits of a man so retiring as Mr. Nana Morojee, who does his duty quietly instead of starring it in public. But the testimony already borne by the press must have shown His Excellency something of the esteem in which Mr. Nana Morojee is held by the community of Bombay. And if His Excellency were to decide that owing to the honourable career of an old servant Government would be satisfied with severely censuring him instead of insisting on his immediate retirement, his action would be welcomed by the public as both just and graceful, and would promote among the native magistrates and judges throughout the Presidency a sense of the honour done by Government to a career of unostentatious devotion to duty and high magisterial integrity.

AN OLD EUROPEAN RESIDENT.

SPIRITUAL LIFTING POWER.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—In the *Pioneer's* interesting report of Colonel Olcott's lecture, which you reproduced, the gallant Colonel thus describes the powers of his spiritual medium :—"Heavy weights are frequently raised, and sometimes transported to considerable distances without visible human contact." Can you inform me if Colonel Olcott is prepared to supply his "patent spiritual medium-lifting power," and if so, what would be the charge per ton for discharging a steamer's cargo in the Prince's Dock ? A friend of mine, who has a ten-ton boiler on Colaba Bunder, also wishes to know what the medium would charge for transporting the boiler to a spinning-mill at Parel. The burning desire to encourage science must be my excuse for thus troubling you !

KURRACHEE RACES,—1880.

(FROM A CORRESPONDENT.)

STEWARDS.—Colonel G. Colquhoun Grant, H. M. Thompson, Esq., Captain Elliot, Depy. Assistant Quarter-Master General, T. Hart-Davies, Esq., C.S., A McHinch, Esq., H. C. Mance, Esq., Dr. Adey, Captain Bowie, 96th Regiment.
Judge.—Major Fitzgerald.
Starters.—Surgeon-Major McVittie and Captain Allsopp, R. A.
Clerk of the Scales.—A. McHinch, Esq.
Clerk of the Course.—H. M. Thompson, Esq.
H. C. Mance, Esq., Honorary Secretary.

FIRST DAY, TUESDAY, 5TH OCTOBER.

THE first day of the Kurrachee races was in every way a success ; weather fine, fields and racing good, and the grand stand crowded with the beauty and chivalry of Sind. The band of the 98th (Prince of Wales) Regiment played between the races, and the music was greatly appreciated. The ball opened with the Galloway Race, for which four horses were down on the card. After the usual delay, which is always the case when gentlemen riders are up, the lot were weighed out, and proceeded to the post, where they had to wait for Barabbas, who very strongly objected to going near the course. At last by the determined efforts of two gentlemen, the brute was dragged up to the post ; but as soon as the signal to start was given, he stuck his toes in the ground, and refused to move. The others got off to a good start, and Tony took the lead. At the bend Russet tried to come up, but failed, and Tony cantered in an easy winner ; Russet a bad second.

Pas ponies came to the post for the Pony Race, and again Barabbas kept them at the start. After a lot of false starts they got off very well, with the exception of Barabbas, who, as usual, started badly. Blueskin forced the pace for ½ mile, when he was passed by Judy and Barabbas, the former winning easily from the grey, who ran like the cur that he is. Blueskin a bad third.

Then came the race of the day, the Sind Derby, for which seven appeared—two first class Arabs and five hacks. At the lotteries Mr. Cannon's stable was sold for Rs. 305, and it was generally expected that they would run, as they did, first and second. Both Hollander and Prince were in the pink of condition, and looked like kings as compared with the others. After two false starts they got off well together, and Saracen overpowering his rider, rushed to the front, closely followed by the light weight. Half a mile from home both Saracen and Sir Douglas had had enough of it, and were passed by Hollander. Prince and Tony, the two stable companions, kept together to the end, when Hollander came away, and won hands down. A good race for second place between Prince and Tony, the rest toiling wearily behind.

Then came the Lilliput Stakes, for which eight runners went to the post, and again did Barabbas keep up his reputation by refusing to start. Lord, a well-known jocky at a Bengal meeting make a remark about a horse that would not start, which, I think, is very appropriate to Barabbas. He said, "Start him ! I guess a bounce bullet is the best thing to start him." Such a long time was taken up by the start that the race was run in the dark, and I could only see the game little Judy winning in a canter from Rifle : the rest nowhere. Judy is in for the chase on Thursday, and bar accidents, must win.

I now subjoin the order of the races.

THE GOVERNOR PHOTOGRAPHED.—We hear that H. E. the Governor and staff were photographed in a group the other day at Poona by Mr. M. Fischer, of the "Photographic Parisienne."

ZOROASTRIAN CALENDAR.—The Zoroastrian Calendar for the year of Yezdijird 1250, corresponding to September, 1880, is a work useful chiefly to the Parsees. It contains several subjects of interest to that community.

SUICIDE.—A Coroner's inquest was held yesterday at the J. J. Hospital on view of the body of Yenkatee Heerappa, who died from the effects of a poisonous dose of opium, which he had voluntarily administered to himself. A verdict to that effect was recorded.

THEFT.—Bhiva Rowjee and Ramchunder Babajee were yesterday convicted by Mr. Nana Morojee of stealing gold rings and cash, of the aggregate value of Rs. 33, the property of Dhondoo Vishram, who resides on the Piquet Road. They were each sentenced to six months' rigorous imprisonment.

THE MURDER OF A GIRL FOR HER ORNAMENTS.—Koopchund Bhaichund was yesterday charged before Mr. Nana Morojee with murder, by wilfully and maliciously causing the death of Pankoowar, a Hindoo girl, about five years of age, on or about the 11th instant. The case was postponed for hearing to the 25th instant for the completion of the Coroner's inquest. The prisoner was remanded to jail.

CARRIAGE ACCIDENT.—A Hindoo, named Cannoo Soora, aged about 40 years, who resides at Mody Khana, while passing along Jugjeewan Keekah Street on Thursday last, was accidentally knocked down by a dog-cart belonging to Mr. Ward, of the firm of Messrs. Ralli Brothers. He was severely injured, and was removed to the J. J. Hospital, where he has been detained for treatment.

DEATH FROM SNAKE-BITE.—A Coroner's inquest was held yesterday, at the Queen's Road, on view of the body of Bhoodia Mungal. Deceased was a Kalassee belonging to a prow that came into the Backbay Harbour laden with logs of wood from Damaun. While unloading the vessel at the Chowpatty Bunder, a cobra crept out of a hollow piece of wood and bit the deceased's right arm, from the effects of which he died shortly after. The cobra was killed by the other boatmen. The verdict was that "the death of the deceased was caused by his having been bitten by a cobra."

THEFT AT TARDEO.—A report was made by Mr. Nowrojee Wadia, on Thursday last, to the police that a considerable quantity of property consisting of sheeting cloth, towels, &c., had been stolen from the Maneckjee Petit Manufacturing Mills at Tardeo. Upon enquiries the night watchmen of the mill, named Luximon Mankoo, Gunnoo Shewa, and Ramsurn Churugin, have been arrested by the police, and property of the above description, to the value of Rs. 60, has been recovered. Further enquiries are in progress for the recovery of other property missing from the mill.

FIRE.—A fire broke out on Thursday at 10 a. m., on the second storey of house No. 17, Bunia Road, in a room occupied by one Pitamberdass Narayendas. It appears that Pitamberdass went out at 7 o'clock that morning, leaving a naked oil-lamp burning near his idol, and close to a cotton bed folded up. This caught fire. On the alarm being raised the neighbours, with the assistance of the police, speedily extinguished the flames. The damage is estimated at Rs. 25. In the evening the occupant of the room reported to the police that he had lost a gold ring and Rs. 35 in currency notes.

SIR JAMES FERGUSSON AT PARBUTI.—His Excellency the Governor, on Wednesday evening, visited the Parbuti Hill, with Lady Fergusson and many other European ladies and gentlemen of note. His Excellency saw the gods Mahadeo, Vishnu and Kartik Swami. Rao Bahadur Khanderao, Vishwanth Raste was present to point out to His Excellency all that was interesting. After half an hour's inspection of the hill, His Excellency descended the declivity to a tent where refreshments had been provided,—a grateful adjunct to a climb up and down the Parbuti steps.

DESERVED PROMOTION.—Mr. D. M. Lalcaca, formerly of the Bombay General Post Office, who has been with the Southern Afghanistan Field Force in charge of the Post Office at Quetta during the three campaigns, has now been relieved of his onerous duties, and promoted to be superintendent of the Post Offices in the Dharwar District,—a promotion he has well earned. Mr. Lalcaca has had a large share of the harassing duties connected with the business of a field force postal department. During these campaigns he has gained the golden opinions of all officers of the several forces. Sir Robert Sandeman, K. C.S.I., has testified to Mr. Lalcaca's having done really good service during a trying and difficult time. Mr. Lalcaca is now on his way back to Bombay. Before leaving Quetta he was entertained by the Parsee residents at a dinner-party.

FIRE IN A GODOWN.—A fire broke out yesterday morning, at about 4 o'clock, in the godown of Manjee Canjee, situated on the groundfloor of a house belonging to Ally Sahib Abdool Guffoor, in old Jambli Street. The alarm of fire was first raised by one of the neighbours on seeing smoke issuing from the door of the godown, which was locked. The lock was immediately forced open under the direction of the police, who, with the prompt assistance rendered by the people in the neighbourhood, and with the aid of a Sydownee manual fire engine, completely extinguished the fire within a short time. The whol of the steam fire engines from the several fire brigade stations repaired to the fire, but their services were not required. The origin of the fire is not known, but it is believed some of the workmen employed at the godown on the previous evening probably dropped the end of a lighted *biddee* amongst some rubbish, which smouldered away until it broke out into a flame. The damage caused to the glass and crokery-ware with which the godown was stored is estimated at Rs. 1,000, owing to the breakage caused in removing the articles in order to get to the seat of the fire.

ARRIVAL OF THE 1ST KING'S DRAGOON GUARDS.

HER MAJESTY'S Indian Troopship Orontes, Captain Richard G. Kinahan, arrived in Bombay harbour yesterday from Natal, which port she left on the 29th September, with 22 officers and 444 men of the 1st King's Dragoon Guards. The following is the list of officers :—

SPORTS AND THE DRAMA AT KHOLAPUR.

(FROM AN OCCASIONAL CORRESPONDENT.)

KHOLAPUR, OCT. 9.

THIS place was the scene of great excitement last week. Hitherto I have refrained from reporting on it, lest coming so closely on the heels of the Kurrachee and Ooty 'scares,'

BENGAL.

POSTAL ARRANGEMENTS.—Mr. H. M. James, Post-Master-General, Bengal, left Calcutta on Saturday last for Nepaul, to have an interview with the Resident with the view to settle the question of the transit of the "value-payable" parcels along the Nepaul postal line, to which Mr. Girdlestone is said to have objected. Mr. James is expected to return to Calcutta in a month or so.—*Indian Daily News.*

SALT SMUGGLING.—His Honour the Lieutenant-Governor of Bengal has passed his final order on the petition of the seven officers who were lately dismissed from the Preventive Service by the Collector of Customs on the recommendation of the Superintendent, Mr. Kilby, who, after a very careful investigation, found them to have been implicated in salt smuggling. His Honour saw no reasonable ground to interfere with the order of the Collector, which was in the usual course confirmed by the Board of Revenue, regarding the dismissal of the petitioners, who, owing to the length of time that had elapsed since the offence was committed, could not be proceeded with criminally. The investigation held by the Superintendent occupied several months, and it disclosed a state of things which is almost incredible. That a system of salt smuggling could have been carried on in a city like Calcutta for a series of years without detection, appears to be most extraordinary. At the lowest computation the loss of revenue is believed to amount to about ten lakhs. There was a regular organized body composed of the officers of the service sworn to secrecy, and they were headed by a salt merchant, who found it very profitable to take the salt without paying the duty, and dividing the profits among the officers belonging to the clique. The strangest part of the affair is that, though from time to time annonymous letters were addressed to the then Collector by some members of the service to the effect that smuggling was going on, no notice of any kind was taken. Some members of the service were living in a style which led many to think that they had come in for a small fortune. The salary of a Preventive Officer just sufficed for him to live decently, but there were some who could afford to keep a good table and a stud of horses. His Honour suggests that a vigilant eye should be kept upon the suspected officers, who could not, under the circumstances, expect any promotion. It is said that the officers, who were concerned in the smuggling, had forged boat passes, printed in such a manner that detection was practically out of the question.—*Englishman.*

MADRAS.

UNEXPECTED PROMOTION.—We have to congratulate the Chief Commissioner of Mysore on the attainment of an entirely unexpected honour. The Lahore paper says:—"In obedience to instructions from the Government of India, the Chief Commissioner of Mysore, Colonel J. D. Gordon, has submitted a memorandum, which the Government of India consider to be completely satisfactory." That the P.D. is not responsible for this promotion, is apparent from the fact that the official in question is spoken of as "Colonel" Gordon four times in the same paragraph; and as our contemporary is both "civil and military," he ought to know. Our gratification is only qualified by a doubt as to the advisability of pitchforking a Civilian into so advanced a military rank; but we have no doubt that Mr. Gordon is quite as fit to command a regiment as several officers who have recently earned notoriety at Kandahar.—*Id.*

THE ARCHDEACONRY OF MADRAS.—Many will regret to hear that the Ven'ble Archdeacon Drury retires in March next, after having performed the duties of his responsible office in this diocese, for so many years past. Rumour is already busy as to who will succeed to the office. The Rev. G. Warlow's name has been mentioned. If there be any truth in this report, we do not think a better selection could be made. Mr. Warlow has had the most extensive experience of the condition and requirements of this diocese, and, during the period that he acted as Secretary of the S. P. G., saw a good deal, in his tours, of the working of the missions in various parts of the presidency. He is exceedingly popular as a preacher, and his personal qualities have earned for him great regard and esteem. Were he selected, therefore, as a successor to the Archdeaconry of Madras, his nomination would meet with universal approval.—*Athenæum.*

DEATH OF AN OLD MADRAS OFFICER.—We regret to record the death, at Madras, on the evening of the 11th instant, of Captain Henry Bailey, son of Thomas Bailey of Mount Charles, Belfast, Antrim County, Ireland. He entered the late Honorable East India Company's Artillery, 1844, joined the Company's Sappers and Miners, went through the usual course at Chatham, and arrived in India on the 3rd June 1845. After serving with the head-quarters of the Sappers and Miners at Dowlaishweram, and under the direct orders of the Board of Revenue, he joined the Department Public Works, and was posted to Saugur, whence, after labouring there for five years, he was transferred to Jaulna, to superintend the erection of the barracks at that station. As a reward for his efficient services at Saugur and Jaulna, he was on the organization of the Department in 1867, promoted to Sub-Engineer and posted to Malabar, which—after a long journey down, lengthened by having to zigzag across the direct route to avoid gangs of mutinous sepoys and budmashes—he joined in October of that year, and where, with the exception of a short period spent in the Salem District, he served until he had to leave through the illness that has proved fatal. It is believed that Captain Bailey was nearly one of the last of the old Company's Sappers and Miners, a body of men well-known to the old Engineer officers. Malabar owes much to Captain Bailey in roads and ghauts, as when he joined the District, with the exception of a few trunk lines, the country was closed, all except cooly and bullock transport. Perhaps the best proof of the estimation in which he was held by the local authorities lies in the fact that, on his retiring under the terms offered by Government at the end of last year, the Local Funds Boards of Malabar unanimously presented him the appointment of District Engineer, which he accepted; he was engaged in estimating for placing an iron superstructure on the piers of Iruttу and other large bridges, when he was forced to leave work to seek medical advice in Madras. As Captain Bailey has held that rank since 1864, it is possible that Government may see their way to presenting his widow with a tangible token of their appreciation of his long services.—*Madras Times.*

N. W. PROVINCES, PUNJAB, AND OUDH.

THE DERAJAT DIVISION.—Major E. L. Ommaney, Officiating Commissioner, Multan, has been appointed to succeed Colonel Munro in the charge of the Derajat division, on that officer retiring on the 1st proximo. Major Ommaney will be relieved at Multan by Colonel Birch, now at Delhi; and the Delhi division will fall to Major Gordon Young, who returns from furlough some time towards the end of October.

THE PUNJAB COMMISSION.—The following promotions have been made in the Punjab Commission, *vice* Colonel T. F. Forster, retired:—To be Deputy Commissioner, 1st class, Mr. Oswald Wood; to be Deputy Commissioner, 2nd class, Major R. P. Nisbet; to be Deputy Commissioner, 3rd class, Mr. H. W. Steel; to be Judicial Assistant, 1st class, Mr. J. W. Gardiner; to be Judicial Assistant, 2nd class, Mr. F. Bullock; to be Judicial Assistant, 3rd class, Captain A. THE CAUSES OF THE NAINI TAL LANDSLIP.

To the Editor of the "Pioneer."

SIR,—Will you permit me to state, for the benefit of the public, that the landslip, which has committed such frightful havoc, was not wholly unexpected. Every one knows that when the landslip of 1868 occurred, it was found *then* necessary to build *under* old Government House some heavy masonry walls, as the south-eastern end of its plateau had sunk. The landslip had occurred far to the west of Government House, and had no connection with the sinking of its plateau. Year after year the soil behind the Victoria Hotel continued to slip away, till at the beginning of this rainy season a high and steep scrap was entirely denuded of vegetation. Last year the road immediately under Government House was cut across by drainage which was allowed to run over it, *so that the top and bottom arrangements for this were complete.* The same drainage was allowed—nay, invited to follow its former course, by the construction of a bridge where the road above had been destroyed, and I will ask any one who knows the nature of this soil whether it was right and proper to permit the slightest flow of water in this direction? Add to this the recent construction of three houses above Government House, by which large plateaus of absorbing surface were exposed to the action of rain, and no arrangements made to drain those surfaces. We had all the necessary arrangements completed for surface overflows, and the supply of subterranean springs, over the unfortunate hotel. A great flourish of trumpets at the conclusion of last rains announced the vigour and determination of the municipality to take up and settle the question of drainage, and the public fondly hoped that, with the experiences of 1879, during which an amount of rain fell, hitherto totally unknown in Naini Tal, the Municipality had fully awakened to a sense of what measures were necessary. I will ask if any change for the better, or any change at all, was observed in this year's arrangements? With very few exceptions every casualty in Naini Tal can distinctly be traced to *unskilled drainage, or to entire absence of proper drains, or again to the entire absence of protecting walls in the ravines of main drainage*; yet *this* is what it was proposed to rectify last year. Now, as to the wild statement, that the whole of Sher-ka-Danda is unsound, the facts are that the various fissures and depressions observable nearly all occur on roads, close above them, or close below them, or when found near ravines indicate distinctly enough that the ravine is unprotected whilst loaded with a vast quantity of drainage which nature never intended it to carry. Of the houses on Sher-ka-Danda several have cracked from want of proper foundations, coupled with the use of *mud*, instead of lime, in their masonry, and some from the entire absence of drains to carry off water falling from their roofs: some were cracked *last year* and were patched up, and some have shown their cracking to the surely not unexpected but quite natural encroachment of ravines near their sites, and some to a combination of the causes above set forth. I shall be sorry to see the lessons of this year thrown away, and a relapse into the former apathetic custom of letting matters slide. I do not, I must confess, believe that any great improvement can be expected, unless a radical change of Government follows. The system is rather to expect officials trained for judicial or revenue work, to undertake the work of engineers, which ought to be entrusted to experts. Which would be the most ridiculous, *viz.*, To see a civil engineer suddenly placed on a judicial bench to administer justice, or to see the Judge suddenly ordered to undertake the duties of the executive engineer? The first metamorphosis is never carried out, so far as my experience goes; but the latter one sees constantly in India, and though familiarity with it has ceased to excite surprise, yet it is not the less absurd. I will do the Municipal Commissioners of Naini Tal the justice to state that, conscious of their own deficiencies, they have repeatedly appealed to the Government for the services of an engineer without, however, effecting their object.

ADVERTISING
AT
RAILWAY STATIONS.

THE Proprietor of the "BOMBAY GAZETTE" Press having leased from the *GREAT INDIAN PENINSULA RAILWAY COMPANY* and the *BOMBAY, BARODA AND CENTRAL INDIA RAILWAY COMPANY*, the exclusive right of advertising at all the Railway Stations belonging to these two Companies, is prepared to contract with parties desirous of posting Notices of Advertisements on the lines.

The announcements may be in English or in any of the Native Languages.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every one in the United Kingdom.

INSURANCE COMPANIES, SHIPPING COMPANIES, HOTEL-KEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of Railway Station Advertising.

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, Native Merchants, Traders, &c. seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

And as nearly ALL TRAVELLERS ARRIVING IN INDIA NOW LAND AT BOMBAY and proceed by the G. I. P. or B. B. and C. I. Railways to their destinations, Placards exhibited at the different stations on those lines are every day becoming more and more valuable as means of bringing the Advertisers' business to the notice of the public.

Advertisers can select the stations, on either line, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers may be printed as moderate charges in English or any of the Native languages at the "BOMBAY GAZETTE" Press. Estimates on application.

RATES.

Boards not exceeding 2 feet long and 2 feet broad Rs. 2 per month. For every additional square foot annas 8.

Thus a firm exhibiting a board, say 4 feet square, will have the advantage of having his business Advertisement read by thousands of passengers on one station platform for the trifling monthly expenditure of Rs. 2. Parties advertising on six stations or more will be allowed a discount of ten per cent.; on twelve stations or more twenty-five per cent.

The boards to be delivered at the "BOMBAY GAZETTE" OFFICE, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to THE MANAGER, "BOMBAY GAZETTE" OFFICE, Rampart Row, Fort.
